Dear Members of the Finance, Revenue and Bonding Committee,

I OPPOSE HB 5653 – Ammunition Tax

This is clearly an infringement on the Second Amendment of the US Constitution by charging a tax specifically targeting the right to bear arms.

This will also adversely affect low income, law abiding gun owners who may live in the higher crime areas and have the right to protect themselves and their loved ones.

Recent high and continued inflation has hurt all residents of Connecticut and this will add to that burden.

Respectfully Submitted,

John R. Buckley
